---

Every queenslander has the right to vote. People are no less human just because they are in prison. A government can have implications on prisoners and their rights and therefore prisoners should also be allowed to maintain their freedom to vote.

Drvelopers should not be allowed to make donations to any political party. There is no possible way for this to be ethical. What responsibility would there be for any political party to ensure due process is taken. We can already see that the LNP has changed public developments into private and in the end this costs queenslanders.
