---

To whom it may concern,

I am very concerned about the proposed change:

"remove the ban on political donations from property developers and related industry bodies"

This doesn't sound like it fits within the proposed goal "to improve and restore fairness and equality to the regulation of elections".

As it is, affording a property is very difficult and I do not feel that developers have anyone's interests at heart except their own. I would much rather they cannot donate and laws and regulations are made without their potential interference.

Thank you for taking the time to read this.

Dave.
