

Electoral Laws (Restoring Electoral Fairness) Amendment Bill 2025

Submission No: 039

Submission By: [REDACTED]

Publication: Making the submission public but withholding your name

In relation to the amendment to persons currently serving sentences. I would like that to be amended to included all persons convicted of a crime or more than three indictable offences.

In relation to donations by property developers.

I do not believe it appropriate for developers etc to hold sway over any level government through financial contributions. The level money and the disappointing level of destruction of arable farm lands involved with development projects is extreme. The process of these applications must remain objective.
