

# Electoral Laws (Restoring Electoral Fairness) Amendment Bill 2025

Submission No: 044

Submission By: [REDACTED]

Publication: Making the submission public but withholding your name

---

We need transparency into who is actually making donations into the parties and if there is any conflicts of interests. Also preferential votes should not be counted towards other parties votes should be held again till clear winner so we don't end up like Albo winning on only 33% of votes.. People rushed into country to to just vote shall not be able to vote for 5 years of being in the country..ID should be shown at polling booths as well.
