

Electoral Laws (Restoring Electoral Fairness) Amendment Bill 2025

This law is not about 'increasing fairness'. It is about the opposite, allowing those with money and influence to use their power to change election results and to allow corrupt politicians to profit off of corporate kickbacks. It is an insult to the very notion of a free and fair democracy, and hypocrisy of the highest order.

This law is not just unnecessary, it's outright harmful to the future of Queensland.
