---

I think the new bill address key issues and allocates resources and funding to effective areas to prevent future attacks in QLD.

I would like to see consideration shown towards New Zealanders with regards to the citizenship eligibility for firearm licences.

A key reason is the eligibility for SVC New Zealanders had strict criteria untill changes in recent years. Which is also a contributing factor as to why I have only recently applied for citizenship although completing school, univeristy in QLD. Throughout this time I wanted to be an Aussie, but immigration laws restricted this for me.

New Zealanders with firearms licences make a regognisable contribution to reductions of feral annimal and pest numbers QLD wide.

Consideration to include hunting and collection for a genuine reason would be greatly appreciated by the law abiding firearm owner community.
