Making gun licence for Australian citizens but would be great if somehow a social media check could be done .  
My main concern is how to combat online radicalisatiin and hatred.

I am Jewish. I live in a small community if 1000 people in FNQ. From the moment Oct 7th massacre i happened in Israel i was faced wltb being called a Zionist a Nazi and that Israel has no right to exist its a White European Colonial entity. I faced this abuse on my communities group page and in groups i was once a member of around Australia .  
I faced anger abuse and being told that i am a Nazi a Zionist and 9ctv7th was resistance though many said it was Israel which perpetrated the act on themselves.  
The rhetoric response and propaganda was identical whether local or Australia wide.  
Even though once i ran for the Greens ( i did face anti semetism from one member) i noticed that all the locals abusing me on line were Greenies .  
When the Bondi massacte of Jews hapoened again no mourning no sadness but only uprising and hate towards the Jewish state and the Jewish people.

What i did notice in my lical community that aboriginal activist friends that i had stood beside in marches for the 45 years i have been in my community suddenly were not only spouting anti Israrl rhetoric but saying things like why do the Jews get a day of mourning?. And after the Perth Australua day bomb scare where no one was hurt my local once friends were spouting how come the Jews were told the name of their attacker? How come Bondi was called a terrorist attack immediately.  
What i am saying these demonstrations, Jew Hatred , Obsession with the Jewish state seems to be coming from online in a cordinated fashiin with prior knowledge.  
The main focus of any protect of any minority group is to stop the online radicalisation of the general public in what seems to be a very well funded very skilled force spreading misinformation and lies. There should be a task force dedicated to monitoring hate speechmis information, propaganda and AI generated lies and a link for people to send these information to .  
As a result of all of ths above I have retreated from socialising in my local cimmunity where i have lived for 43 and only feel safe within the Jewish community
