---

I submit that the requirements for metal-only cabinets/safes for category A and B long arms be exempted. Fully lockable solid wooden safes/cabinets are completely satisfactory for security purposes. A requirement of no less than 1/2 inch or 12mm thick wood is reasonable. Many completely law abiding and responsible firearm owners in Queensland keep their arms locked in strong wooden cabinets/safes. To mandate metal-only cabinets/safes will place an unnecessary and unreasonable financial burden on these individuals.

Thank you for your consideration.
