I would like to thank out state government for not making a stupid knee jerk reaction that completely missed the cause of the tragic Bondi shooting. This bill looks reasonable and well thought out to try to stop the people who should not have access to firearms from having access and ensuring sufficient penalties if they are found in possession of firearms. This is being done without harming licenced, law abiding citizens and importantly, visitors to our country visiting to participate in competitions.

I would also like to thank our government for not bowing to the pressure from the opposition or federal government who clearly have an agenda that has nothing to do with keeping Australians safe as what they want only targets licensed, law abiding citizens and does nothing to stop terrorists from acquiring firearms or discouraging them from doing so.
