Born in 1948 and having been an active gun owner for approximately 50 years abiding by responsible storage regulations I find it disturbing that a privilege long enjoyed can be withdrawn or diminished in order to appease political active groups within our society. Reactive policy making without consultation does not reflect a Democratic society. In a society that rushes to affix blame, a media that actively continues to replay painful images, we are slow to recognize the complexities within our developing Multi Cultural Society and the quiet pressure these various cultural groups apply to both media and our politicians.

Various political Governments have I believe adopted policies in Mental Health, Aged Care, International Student Intake, Specialized Visa allocations and the provision Individual / family support provisions Not readily in their country or origin.

Legislators elected by the people must represent all constituents, our Constitution is the foundation on which Mult Culturalism has grown, and the Freedoms expressed within it should Not be altered to appease Cultural pressure's. Statesmen and Women leave enduring legacies Politian's are often forgotten, save all except there Party.
