---

Hello

I wish to lodge my request that you reconsider the "Fighting Antisemitism and Keeping Guns Out of the Hands of Terrorists and Criminals Amendment Bill 2026".

It appears to be a hodge podge of laws attempting to cover disparate things and a kneejerk reaction to the horrendous situation that occurred in Bondi. When the Port Arthur shootings took place Australia reacted with laws that were appropriate to the situation but this appears to be trying to push through a Big Beautiful Bill which, just like its counterpart in America is neither well thought out nor will it achieve anything other than to make life harder for those who deserve it least.

People who choose to protest against injustice, genocide or what they disagree with have the right to criticise others and the way this bill attempts to focus on one group of protestors in order to support a foreign power is not sustainable as was recently shown in the UK.

Please use this opportunity to actually do good, rather than simply bowing to the pressures of the right wing media. Australia does not have to follow America down the path to a country so divided it is fast becoming a third world.
