

Fighting Antisemitism and Keeping Guns out of the Hands of Terrorists and Criminals Amendment Bill 2026

Submission No: 259

Submission By: STEFAN KAROTKAVITCH

Publication: Making the submission and your name public

I have read the actual bill in it's entirety and I find the following:

1. The Bill is in lawyer speak and written in such a convoluted way it is exceptionally difficult to navigate and understand.
2. The bill does NOT make provision for making the burning or desecration of the Ausyralian Flag a Yerorist or Criminal act. Desecration and or burning of the Ausyralian Flag, in ALL it's forms is treason and should be dealt with as such.
3. The bill does NOT make the protesting of palestinian activists, the display of a nation committing genecide, intafada, the forcing of islam and outward defiance against Australian Law Enforcement criminal and it must.
4. The bill in it's majority targets firearms and still criminalises Law Abiding Firearms Owners, Businesses, Farmers, Professional, Recreational Hunters and Sporting Shooters of Queensland and Australia of which my wife and I are proudly part of.
5. The bill if it truely, honestly, transparently is to combat Terrorism and Criminals it actually needs to target the systemic failure, laziness and incompetence of the internal departments, in place to protect this great nation and the law enforcement on the ground.
6. Port Arthur, Weimballa, Bondi ALL preventable with the systems already in place. Those systems were not utilised either by laziness, incompetence or design.
7. The bill still attacks Free Speach and gives more unneccesary responsibility to our already overstretched police force who are increasingly youger and inexperienced ... like the two young officers victims at Weimballa ... they never should have been there in the first place and the neighbour also a victim should have been proceduraly warned to keep away. That was specialist operation for experienced special ops, personnel.

In closing this bill should be rewritten in it's entirety, it smacks of cut and paste from WA 2024 legislation, parts of the NSW 2025 legislation, both forced through, within rediculously short and irrstional time grames and without due and proper consultation or consideration of damage to Law

Abiding Citizens.

I thank you the committee for your indulgence and allowing me to present my thoughts.
