**Publication:** Making the submission public but withholding your name

---

I am supportive of strong mandatory sentences for thefts of firearms via breaking and entering or thefts from a premises. I would also encourage compulsory dna testing of crime scenes where firearms are stolen. We must encourage any thieves to think twice before forcing entry to a firearm safe when they enter a property. DNA testing will ensure this offence would hang over them.

I am vary wary of the criminalising of speech, even offensive speech as I believe this is something authoritarian non democratic states do.

I am in support of the firearm part of the legislation.
