It is ridiculous to single out a group of people. We do not do this for other populations that experience discrimination and violence - First Nations peoples, Muslims, etc... This legislation is designed to limit criticism of Israel, a state actively in breach of international laws and committing genocide. It is undemocratic to put limits of peoples freedom to criticise and protest in times of genocide. This will not keep anyone safer. What a stupid bill!

Australia is complicit in this genocide, so it is no wonder our government is trying to propagandise the people so intensely. We see through you! Australia is complicit in genocide. This legislation aids that complicity. Shame!
