I wish for the Justice, Integrity and Community Safety Committee to consider that if a child or young person who commits a crime repeated i,e car theft/joy riding can have all previous charges bought up during trial or go to jail for 10 years. However a serial abuser who is over 18 and has 4 DVO's against him cannot have his previous crimes admitted during trial and for the serial abuser I'm talking about ; he went to jail for 6 months for deprivation of liberty ,rape, bashing a woman with a baseball bat and strangulation, she is still in crisis and can't work after 1 year. If you believe in justice make it equal not just send kids to jail for nicking a car, insurance pays for smashed cars, however a womans safety is not as important and there is no insurance for womens safety.
