Submitter Comments:

i am a director of my company who contracts to Property group and have been looking after their Townsville properties retail / office / industrial for 8 years . Townsville property ownership cost wise due to CCTV / time to supply Qld Police with CCTV video / graffiti / damages / extra security services is possibly higher than any area in Australia . Why is it acceptable that Geographically you are 50 % more likely to have crime committed against you in Townsville than the South East cnr of Brisbane . Many offices are vacant in Flinders st Townsville as owners are concerned about staff safety especially if after hrs work is required .
