Submitter Comments:

This bill is looking more at punishment rather than prevention. Put the money into prevention and you may save money in the long run. What are the causes of youth crime? Work on resolving those. Youth crime is down a lot since 2011. All The media hype about crime increasing but they didn't mention that. Prison is not a way to deal with youths. It will only harm them and there is plenty of evidence out there to prove it.
