Submitter Comments:

In my capacity as the Grand Registrar of the United Grand Lodge of Queensland I lodged a submission in relation to the Trusts Bill 2024 with respect to the proposed consequential amendments to The United Grand Lodge of Antient Free and Accepted Masons of Queensland Trustees Act 1942. As a result of that submission and the report of the previous Committee helpful discussions have taken place between the Department of Justice and Attorney-General and myself. Those discussions have answered the concerns which UGLQ had in relation to the relevant amendments proposed in the 2024 Bill. The drafting of the relevant part of the present Bill reflects the outcome of those discussions and UGLQ is content with that drafting. It urges the Committee to recommend the relevant part of the present Bill. Thank-you for the opportunity to make this further submission.
