Character references for sex offenders does not make any sense and should not be allowed to be used in court in order to defend or sway the opinion of the accuser. Sexual predators know how to manipulate people, to pretend to be a certain way to lure their victims in and manipulate people into trusting them, that is all a part of their vile process. Allowing this as evidence in court is just discrediting the victim & allowing these monsters to continue to abuse and ruin the lives of their victims. It needs to stop.
