

Dear Sir or Madam,

I have lived in unit [redacted] on the [redacted] floor for 23 years, that is also the age of Surferv Hawaiian, my husband died nearly 2 years ago. We are only pensioners & that is all we have to live on, I am now a single pensioner. We found out the body corp. payment so that is all we could afford because each floor the units got dearer & body corp. fees were increased. I'm going to find this increase very costly now once again they are getting their fees reduced so that the unit owner on the lower floors

(2)

have to supporting the penthouse owners which we have done before. My unit fits into theirs $3\frac{1}{2}$ times I've been told & they have 360° views. I now look out on a house next door that the ~~unit~~ next door built so most of my view has disappeared. It will take more than 1 months pension to pay my body corp. fees when due, my savings all disappeared before paying the higher fees we only got it altered this year now find that the rich are getting us to pay their dues which I find very unfair & unjust, when they bought their penthouse they signed a contract the same as me to pay their body corp so why? so why? regards
Mrs Betty Desmond
