Subject: re:Crime and Corruption Amendment Bill 2015

This submission is my personal view, not representing any organisation.

Re: allowing anonymous complaints.

My opinion is that this is unfair to the person to whom the complaint is addressed and is a breach of natural justice. There are some very vindictive members of the public and serial complainers. One person could do 10 different anonymous complaints which paints a very different picture to there being one complainant. I think the complainant can make confidential complaints but not anonymous.

Regards
