Subject: Removal of identity acknowledgement
Date: Wednesday, 8 April 2015 3:13:18 PM

You have recently passed a bill that the identity of an individual need not be provide identificationfor a vote in the queensland state or local government to be acknowledged. I strongly disapprove of this as it becomes much easier to introduce a fraudulent vote into the system. this brings truth to the caption that maybe "dead men do tell tales"or "votes". Furthurmore the integrity of the present voting system can be more easily compromised by other methods of vote rigging.
