To whom it may concern

I have recently heard you are proposing to take away the requirement for voters to show ID when voting. This seems a strange thing to do since people could easily pretend to vote for someone else and do this several times. It would make for a very messy system of having to "clean up" after an election as there may be multiple votes in one name. Therefore, I ask you to keep the current requirement for voters to provide proof of identity before casting their vote.

Regards
