Dear Miss/Mrs D'Ath,

I wish to voice my objection to the bill that seeks to remove voter proof of identity at local and state elections. Removing this leaves the system open to rorting and fraud. It makes me wonder why your party wants to remove voter proof of identity – perhaps you want labor members to indulge in fraudulent practices so you can “win” again at the next election!. Most people in the community don’t mind producing proof of identity – after all, we are required to do this in many areas. I also object to your wanting to reinstate the \$1000 gift threshold amount back dating it to November 2013. These are sneaky measures by your party to amend voting laws. You only “won” because of lies and more lies and so far your party is doing a lousy job and this bill just highlights your sneaky and underhanded practices.
