**Date:** Wednesday, 8 April 2015 6:06:33 PM

---

Dear Hon Yvette D'Ath

We have read on your Website your intention in the Legislation Amendment Bill 2015 to remove the requirement for voters to provide ID.

This would not be to the best interest of the Queensland population. My wife and myself strongly oppose your move away from the present system.

Therefore I would ask you to seriously reconsider this move.

We speak as a concerned members of our state of QLD

In the current climate of worldwide unrest we need more protection, not less.

We need more confidence in our elected officials to ensure the integrity of the electoral system is kept in place.

Please keep the current requirement for voters to provide proof of identity in place and don't change that.

Sincerely

Lambert & Elleanor KIL
