Subject: Please reconsider changes to the voting laws
Date: Wednesday, 8 April 2015 6:08:41 PM

Hello I am a voter & proud to be one but I do object to the changes especially the ID Voter requirements I feel that change is good if it really is accomplishing something beneficial but unless you can convince the voters this is a good idea then I stand firm on opposing this Bill also do we the voters get to vote or is it to be a politician decided bill?

Perhaps having a forum such as Q & A to put it to the people & for it to be explained as to why it is necessary Also we must be sensible & not allow Bills to be passed that could have serious ramifications in the future as often other issues are tagged along with the bill that uses the Bill as a vehicle just to be accepted.

I would like to know more please before this Bill is voted on...

Yours Sincerely

Barbara A Bishop
