Hello;

I wish to make a submission on proposed changes to Queensland Laws.

I oppose the removal of voter proof of identity requirements for Queensland and Local Government elections.

The voting system will be cheated if such changes are made.

Regarding the political donation threshold \$1000 is too low in my view for State elections. I would suggest at least \$5,000 would be more appropriate in order to avoid un-necessary requirements for the political process for donors to candidates and Parties etc.

Yours Sincerely;
Mr. L. Nightingale;
