To whom it may concern,

I wish to state my objections to the Electoral and Other Legislation Amendment Bill 2015 – in particular the section that aims to remove voter proof of ID at state and local government elections. By removing the proof of ID requirements for voting, we are taking a backward step in terms of transparency. There would be no way of telling if voter fraud had occurred, and it would open up the way for this to occur on an increasing level of frequency.
