Dear Parliamentarians

The purpose of this email is to let you know that as a voter I am opposed to the proposed Bill particularly on the issued of Voter ID and the reduction of political donations to \$1,000 from the current \$12,000 which is in line with Federal Election Law.

This is a time wasting expensive idea that catches normal mum and dad donors.

I strongly suggest that you spend your time and effort in providing JOBS for our school leavers/ unemployed and under-employed and focus on the REAL NEEDS of voter not on some nebulous ideology of no purposeful benefit to voters.

Cheers

Mark Grace
