Dear Sir / Madam

It has come to my attention that one objective of the Electoral and Other Legislation Amendment Bill 2015 is to remove any requirement for voters to show identity when voting. This objective is wrong simply because it facilitates fraud. We were aware of neighbours who "boasted" about voting several times during the early 90's. It is all too clear that voters can very easily commit fraud if identity proof is not required. Please do not implement / facilitate such an objective.

Faithfully

Damien Murphy
