To whom it may concern,

I am writing to you to inform you of my opposition to your proposed changes to political donations. The ability to back date the law in order to expose donors from 2013 onwards is a garbage idea, and only designed to catch donors to rival political parties. If you genuinely believe that the previous government did not manage the office of Attorney General properly, a move like this only demonstrates comparable contempt for that office.

Please, reconsider these laws, and make decisions in the interests of Queenslanders, not the Labor party.

Kind regards,
Axel Beard
