Subject: Please reintroduce the ID process in voting
Date: Thursday, 9 April 2015 1:19:52 PM

Hello,

I am most concerned that the Government has now reversed the process of presenting ID before voting. Why has this become such an urgent matter for the government to so swiftly remove the process of producing ID. I need to produce evidence of who I am in a variety of situations, why not when I am voting?

Showing ID closes many potential abuses of such an important event. I am now wonder the ethics of not having to show ID.

Please reintroduce the ID process.

Regards,

Heather Kraus
