Dear Sir/Madame,

I hereby would like to put on record my opposition to the proposed bill to remove the voter proof of identity requirement for state and local elections as I think it was a good step forward to stop fraudulent behaviour in this matter.

Also I would like to say I oppose the reduction of the \$12,000.00 political donation requirement to \$1000.00 as not good move, if people want to give then they should not be stymied in their desire to do so because it has to be declared at \$12,000.00 as I do not think people are buying votes they are giving to what they believe in and all political parties benefit from it before it has to be declared at the \$12,000.00 threshold.

I hope that my comments can be of assistance in these 3 matters.

Yours sincerely
Simon Joanknecht
