Parliament House

Why on earth would you want to remove the obligation to provide voter ID?

One of the things I appreciate about Australia is it's lack of corruption and integrity, including system checks and balances. This is an extremely small thing for a voter to do, and yet adds so much to the integrity of the voting system! I am baffled. I would respectfully submit that this is not something that should proceed, please leave it as an obligation for voters.

Thanks for reading this.

Kind Regards

Stu
