Dear Committee members,

I am very concerned that the Government has legislated against constituents being required to show identification before voting. We, the public have to show personal ID for almost every transaction or prove ID for any phone enquiry we make, so it seems incredible that this legislation was passed through Parliament. Fraud seems to be rife in most situations in life and certainly voting would be no exception. **My wife and I implore you to reconsider this decision and have it overturned. Please reintroduce ID requirement for all electoral functions.**

Yours sincerely
