Dear Committee members,

I wish to raise my concern and dismay with regard to the “Electoral and Other Legislation Amendment Bill 2015” which I believe was introduced into State Parliament about 27/3/15. I understand this legislation seeks to remove the requirement for voters to produce identification before being able to vote. I do not understand why the government wishes to remove an action that will support a fair and honest election process. I appeal to the committee to review this legislation and to reject any changes to the requirement for voter ID to be produced for all State and Local Government elections. I cannot understand the need to remove this requirement and I see it a waste of public funds to spend time and effort in reversing a positive and sensible action by the previous government.

Yours sincerely,

Ruth Dukes
