To whom it may concern,

I am very concerned that this Bill to not require ID when voting in local and state elections is being considered. This flies in the face of any important event that requires ID to prove who you are. You need to show ID to get a phone, open a bank account, open a store account, enroll your children in school, etc , etc, etc... . Why would you consider voting not as important as any of these other events?

Fraud is prevalent in our society and we need to prevent voter id being stolen and used on multiple voting sites as happened at past elections. Please reconsider and look forward not back on this issue.
