Subject: Submission re amendment to voting law
Date: Thursday, 9 April 2015 4:33:35 PM

To the Qld Parliament:

Submission re amendment to voting laws.

I submit that the proposed change to the voting law removing the requirement to produce identification is dangerous and could lead to fraud. It is a much needed safety guard to show identification when voting to prevent people from making multiple votes. This is a requirement that should be in place when voting in State elections or Local Government elections. People are required to show identification for many things and I am alarmed that it is proposed changing this law.

Also, changing the threshold for declared donations is again allowing for fraud and opening the door for corruption.

I submit that the law should stand as it is on these matters as the present requirements are fair and reasonable and designed to prevent fraud.

Respectfully
Valerie Ruth Pym
