Subject: Re Identification at Elections
Date: Thursday, 9 April 2015 5:05:49 PM

I believe it is essential that voters show their identification in order to vote at elections. We are required to show identification when we open a bank account, when we travel by plane and in just about every sphere of our lives and we do it without complaint. Voting is a privilege and has in the past been open to abuse so let's all be accountable and ensure we keep it honest.
