TO WHOM IT MAY CONCERN

I would like to know why these changes to voting laws & the removal of personal ID when voting are being changed & without consultation or notification to the public. Removing the need for identification of a person when voting leaves the outcome open to fraudulent results & the community will suffer as a result. It will open opportunities for people to vote more than once perhaps under false names leading to a rigged result & corruption & our society does not need this, what the people want under the system with ID required is a better system leading to true results by the people. I am opposed to these changes to the current system & feel it is detrimental to our society.

Respectfully
Jennifer Spring
