To whom it may concern

I am deeply troubled that a bill has been presented to parliament to propose changes to the way we vote by removing the need for personal voter identification proof

I strongly believe this is necessary and vital to maintaining the integrity and accuracy of our voting system

I ask sincerely that you consider rejecting this proposed amendment to this existing policy/law that we have in place

Regards

Simon Heazlewood

Hi

Please retain the current requirement for voters to provide proof of identity before casting their vote.

This requirement is widely accepted by the community, and is needed to ensure the integrity of the electoral system by minimising the possibility of voter fraud.
