Subject: Re Bill to remove voter proof of identity requirements  
Date: Thursday, 9 April 2015 10:23:43 PM

---

### **Bill to REMOVE VOTER PROOF OF IDENTIFICATION REQUIREMENTS**

**I strongly object to the passing of this section of the Bill that will remove the need for voters to provide I.D. when voting**

**The only reason, and a weak one at that , would be to not inconvenience voters when going to the polling booth to vote.**

**An inconvenience all honest voters would be happy to ' injure' to ensure the chances of fraud were reduced / minimised**

**Why go back to making it easier for anyone to vote more than once to affect the outcome of a Poll ? make it easier for anyone to vote for a Deceased Person or a factitious name**

**An old saying used to be " vote early - vote often" and It makes one wonder if the current Queensland Government wishes to support that kind of fraud.**

**Today's society recognises that security needs to be tightened across many areas and would accept the need for voter I.D. to be provided. Citizens, in normal day to day activity, carry I.D. with them to do banking etc, should find no inconvenience in yet again producing I.D.**

**I request that this section of the bill be deleted**

**Thank you**

**Kevin**
