Subject: Re the removal of ID requirement to vote
Date: Friday, 10 April 2015 11:29:25 AM

Dear Sir/Madam,

I am very concerned about the **Bill that was quietly passed in Queensland Parliament on 27th March. It removes the requirement in both state and local government elections for those wishing to vote to provide suitable ID. A drivers licence or bank statement or other official documents are not hard to show as proof of who one is.**

Fraud is an increasing problem in our society and I fail to see the wisdom in removing this requirement. Please voice my opinion on this matter

Please respond to me with information on how your/my voice was taken.

Thank you,

Yours faithfully,

Graham Goodhew
