Subject: Identification for voting
Date: Friday, 10 April 2015 11:45:19 AM

Dear Sir

I wish to say how disgusted I am that people will no longer have to ID to vote , this means that people could vote then go and change clothes etc and vote again this is disguising state of affairs where does truth & honesty come in to this and yet again is also proof that we the people are not being represented in parliament , You wonder why people don't trust anything our representatives what they say well the above is just a prime example,

All sorts of promises are made to us the voters at election time but little or nothing happens except more garbage once they are elected

Therefore it is my will that you do not proceed with this bill

Yours Sincerely

David von Pein
