Dear Sirs,

I wish to make a submission regarding the  
Electoral and Other Legislation Amendment Bill 2015

---

I notice that this bill covers several things, one of which is removing the requirement for voter identification in State and Local Council Elections.

I object to this suggestion as it would open the way for fraud and corruption as people would be able to vote multiple times at different locations. What a travesty of a fair electoral system. This would remove any confidence the public might have in our democratic process.

Please remove this provision.

yours faithfully

Christine Fitzell
