To Whom It May Concern,

We cannot believe that you our newly elected government for QLD would even consider removing the requirement of ID for voting?!!

Why haven't we as Queenslanders heard about this very important decision that is being made today? We require ID for just about anything and voting is a very important part of our lives. Why would you allow someone to vote without ID?!! It makes no sense at all!!! We am totally opposed this!!

Kind Regards

Shirley & Roger James
