Sir/Madam

I am most concerned at the proposal that electoral voters should no longer have to present ID before voting. I therefore request that Voters continue to be required to provide proof of identity before casting their vote. The public wish to ensure that the integrity of votes made at elections is maintained and ensured. If proof of identity is not required the electoral system will be laid open to voter fraud. Please treat this as a most urgent so that the electoral voting is protected against fraud.
