Subject: Voter Identification Laws
Date: Wednesday, 15 January 2014 6:45:30 PM

Legal Affairs and Community Safety Committee,
These would be proposals worth considering if we had a problem of electoral fraud. With no such problem they are a waste of time now for the committee and the parliament, for the electorate in the future should they become law and are an attack on those members of the community already disadvantaged.
Please send a strong message to the parliament that these proposed laws be rejected as antidemocratic and a waste of time and money.

Yours faithfully,
Alan Gillanders
