I am concerned that the proposed laws will make it more difficult to vote , not only for elderly people who would have to wait longer in queues, but also those who do not have a drivers licence, or those who move from one place to another, and may not have letters from utilities to identify them.

Please consider whether there is any evidence of voter fraud or impersonation which is being used as a reason for the introduction of these laws.

All eligible voters have the right to an equal opportunity to vote.

Pamela Ungerer
