Subject: Election ID Requirement Changes
Date: Wednesday, 15 January 2014 7:56:55 PM

I understand that the Government is considering requiring more stringent means of identity at poll ping booths for State and Local elections.

This is potentially unfair to many disabled people. Many of these people have no driver's Licence, no Over 18 ID cards or other simple means of identification common to other electors.

I request that the reviewing committee ensure that no impediment to the rights of disabled people is created by any proposed changes.

Ian Brewster
